Water Sunday

Host a Water Sunday

“I was thirsty and you gave me something to drink...”(Matthew 25:35)

What is Water Sunday?

Water Sunday is one Sunday that your church dedicates to educating your congregation about the global water crisis. It is the start of a conversation that ties your community to communities around the world that lack access to safe drinking water. It's a step your church can take towards awareness and responding to God's call to reach out to the “least of these.”

Why host a Water Sunday?

Approximately 884 million people around the world lack access to safe water. Waterborne illnesses result in the deaths of nearly 1.5 million children every year. This is the equivalent of 20 jumbo jets crashing every single day. By partnering with Water Missions International, your church can be part of the solution. Water Missions International is a Christian engineering relief and development nonprofit organization passionately following Christ's call to love your neighbor as yourself. We want to see lives changed through the transformative power of safe water and the gospel of hope through Jesus Christ.

As your congregation becomes aware of the problem, a shift will start to happen in their hearts. Their participation literally means children and adults having a chance at life, finding faith in Jesus, and joining us in heaven. That's a reason to celebrate!

What can I do?

Date - Our 2011-2012 Water Sunday Program launched in August 2011. Please choose a date for your Water Sunday event that works best for you and your church between now and August 2012.

Materials - We want this experience to be as easy and hassle-free as possible, so that you can enjoy the transformational impact of this event. We have plenty of materials available to best equip you for your Water Sunday! Your event can be as simple as a brief 5-10 minute presentation with a Water Missions International informational booth set up in the lobby, or a more in-depth experience that impacts your entire congregation.

Follow Up - Following your request for materials, a Water Sunday consultant will get in contact with you to walk you through the process and answer any questions you may have.

Host a Water Sunday at your church and partner with Water Missions International. We have already brought this message of hope to over two million people and with your help, we can reach more! When our concern joins with others, we can create a chorus of thousands that can make tomorrow a reality for millions. As we link together, even the small efforts become a powerful collective. Your church is now an active part of the solution for the water-crisis.

Just think about the transformative, life-long shifts in the lives of real people around the world.

Six Steps to the Best Water Sunday Ever!

1. Personal Water Sunday Consultant

We will provide you with a Water Sunday consultant to walk you through the entire process, should you choose.

Your Water Sunday consultant cares about the relationship between your church, our organization, and most importantly, the people who will receive clean and safe water. He or she is experienced in planning and promoting this event and will be of great assistance to you.

He or she will work with you to implement your promotional plans, offer direction for your Water Sunday, and answer questions. Contact him or her via phone or e-mail with updates, questions, concerns, needs, accountability, and prayer. Your consultant's job is to help make your event successful.

2. Intercessors

"Our people must learn to do good by meeting the urgent needs of others; then they will not be unproductive." New Living Translation (©2007).

We are mobilizing intercessors across the world to join us in prayer, specifically for Water Sunday. If you have a team of intercessors that would like to be a part of this larger group, please let your consultant know. We will keep you informed of our progress as each small efforts comes together to form a powerful collective.

3. Emergency Water Kit

To help you make the most of your Water Sunday event, you can create your very own, customized promotional kit. Here are the materials you have available:

Promotional video - Three-minute video designed to promote Water Sunday. Show it when casting vision to leadership and core team. Show during Sunday morning worship services. Use anytime you have a meeting adults, youth, or children.

11" x 17" full color posters - You can download a writable PDF version of the poster (size: 11"x17"). Add your church information and print as many as you need. (Note – File is large; allow time for download.) Display posters in high traffic areas in your church as well as businesses in the community (bookstores, hair salons, grocery stores, etc.). Put

some bulletin inserts with your church's information on them near the posters for people who would like to take information with them.

Bulletin Inserts - Download the writable PDF bulletin insert, add your church information, and print as many as you need. Add to Sunday morning bulletin, place near posters, distribute to businesses and friends to promote the event.

E-mail for a Friend - A sample e-mail is provided to help you create an e-mail message inviting a friend to this event. Send to all of the people in your church so they can e-mail it to their friends as an invitation. The text of this e-mail is included in your Emergency Water Kit.

Press Release - Short article describing the event. Send it to the local newspaper to put in either their "Religion" or "Community" section. You can also use this for other newsletters such as your community newsletter or church newsletter. Available online (customize as needed).

Water Sunday Art - Images, logos, and other graphics you can use to create your own marketing piece. Build a flyer, poster, e-mail, or other marketing piece all your own from these components of our brochures.

T- Shirts – Everybody loves wearing event T-shirts and it is a great way to promote your event in advance! When you register your Water Sunday, we will send you two Water Sunday t-shirts. You can choose to receive the artwork and have additional t-shirts printed at your local printer. Outfit your volunteer team and have them available for sale to the whole congregation. We strongly suggest you have some key staff (even the pastor) wear the "hip" Water Sunday t-shirts.

4. Water Sunday Ministry Resources

Your consultant will discuss the plans with you for your Water Sunday and after understanding what your Sunday will look like, will send you the following:

- Sermon outline (optional)
- Water crisis fact sheet
- 10-cards (your consultant will explain this to you)
- Gifts of Change Bottle Wrappers
- Stunning photography in PowerPoint/Keynote (to run before and after service)
- "Living Water" Worship Song - mp3, Guitar Charts and lyrics
- Ideas for creating a compelling visual environment

5. Calling Tree

Often, people are more engaged and responsive when there is a personal connection with an effort like this. We understand that you cannot call every person in your church; however, we do suggest that you and your volunteers make a personal phone call to small group leaders, youth and children's ministry leaders, men and women's ministry leaders, and any other active groups in your church. The purpose of this call is to rally their support with their spheres of influence. Remind them that this is a church-wide event and their help is instrumental to the overall success.

6. Celebrate

The fact is that every \$10 provides clean, safe water for one person. We've had churches provide water for as few as 100 people and as many as 25,000. It all counts! We want you to rejoice in whatever happens on your Water Sunday. Your participating literally means children and adults having a chance at life, finding faith in Jesus, and joining us in heaven. That's a reason to celebrate!
